

Evergreen

scale models

PLASTICS

Evergreen – the whole world of plastics!

Evergreen Scale Models is one of the world's largest manufacturers of styrene plastic products.

With Evergreen profiles, strips, tubes and plates in metric and inch sizes, clean and accurate models can be perfectly produced.

Evergreen products are commonly used by plastic model builders, architects and artists.

Self-serve Display Systems

offers the greatest overall visibility of the world's number one styrene products.

- **Easy to Sell** because of the organized display system
- **Easy to Restock** with the UPC-A bar Code on all products and simple pricing system
- **The Restock** is very simple, each size has its own place in the display
- **Customer Friendly** because of detailed product descriptions and clear informative graphics

#48 How-to Books & Add-on Pocket

Display your copies of Evergreen's great how-to book – Styrene Modeling – with your Evergreen styrene. The #48 includes 6 books and a free wire pocket that fits all #53, #54, and #56 rotating displays.

Display # 48

#53 Floor Display & Assortment

Assortment includes 100 packages scribed sheets, 72 packages plain and clear sheets, 165 packages strips, 46 packages rod and tube, and 98 packages of structural shapes. Free merchandise included to offset the dealer cost of the display rack.

Size: 45 x 50 x 188 cm , 17.72 x 19.69 x 74.02 in.

Order No. 53

#54 Floor Display & Upgrade Assortment

Smaller assortment is for retailers replacing older Evergreen counter box displays. Assortment includes scribed sheets, plain and clear sheets, strips, rod, tube, and structural shapes.

Order No. 54 includes the high quality display.

STYRENE MODELING

A comprehensive and full pictured manual about building and handling styrene in the world of plastic modeling.

This 88 page book is the first complete and informative work about assembly and improvement of plastic kits. Some of the hobby's high end modelers are featured in "case studies". Their tips and techniques used to build and assemble models are explained.

Beside the easy to follow text you will find in this book 174 color and 106 B/W photos to describe advanced modeling techniques using styrene. Printed in English.

- Scratch building
- Decals
- Conversions
- Weathering
- Airbrush
- Glue techniques
- Detailing
