GV Nitro Blaster Drag Car Lives On	3
Product Development & Fighting the Internet	4
Toy & Hobby Retailer - Industry Awards 2011	4
Toy and Hobby Fair 2010 - Dates Announced	4

Model Engines is proud to support Australian Hobby Retailers with an Australian Wide TV Campaign on FREE to AIR TELEVISION.*

Beginning the last week of November and running all the way through to Christmas Eve 2011.

Two Television Ad's have been filmed:

- One for the **Twister** range of helicopters.
- The other for **GV** covers the 1/10th 1972 Peter Brock LJ GTR XU1 Torana, 2011 Bathurst Winning HRT race car and the classic Holden Ute.

Based on last years regional TV campaign, hobby retailers can expect a huge surge in interest with this years TV Advertising.

Model Engines recommends retailers order and stock up now, not only for these fabulous new Ad's but also to get a head start on what is sure to be a great December and Christmas period for the Australian Retail Hobby Industry...

(*Except Darwin)

Model Engines' 2011 Bathurst winning 1/10th HRT

Iconic Holden Aussie Ute!

**Model Engines is more than just Great Products & Prices!
We offer Friendly Expert Service, Product Knowledge & Parts Back-up.**

RFI LiPo Batteries - NEW LOWER PRICES

RFI batteries are proving to be at the 'head of the pack' in terms of power, performance and reliability. We have experienced a large increase in sales as word gets around.

Model Engines' staff have been testing RFI batteries to the extreme in high powered EDF's and large scale aerobatic planes and have not experienced a single failure.

A new shipment from RFI has only just arrived expanding the RFI range with extra sizes in aero style packs in 30C to include 5S along with more sizes of 2S. As well as 25C 3S & 4S hard packs for cars and buggies.

Due to the strong Australian Dollar and our increased order size, the price of all RFI batteries across the board have been dramatically reduced making all RFI batteries great value.

RFI are a first class, high quality, super performance, LiPo battery, that now compete on price with some of the second rate rubbish sold on the web...

New 120 size Twister ARF from Seagull Models

Code: SGTWISTER (SEA140) SEAGULL SILENCE TWISTER FOR .75 - .91 ENGINES (WINGSPAN 1700mm) RETRACTS INCLUDED

Looking for something a little different? Here is a great new model from Seagull Models.

Fully built up and highly aerobatic, the elliptical wings and white/gold colour scheme will add some spice to your hangar and glamour at your field.

- Wing span 170cm (66.9in.)
- Wing area 44.6 sq.dm (691.3 sq. In.)
- Approx. flying weight 4.8 kg (10.6 lbs.)
- Length 135.3 cm (53.3 in.)
- Recommended engine size 0.75cu.in. 2 stroke. 0.95cu.in. 4 stroke.
- Electric Conversion: Optional.
- Recommended R/C 6 channels with 9 servos.
- Flying skill level: Intermediate to Advanced
- Includes retractable undercarriage

Model Engines' best selling servo is available in BULK

Just a reminder that you can buy Model Engines' and Australia's best selling servo, the HS-645MG, in Bulk.

Each bulk pack contains 10 servo's and 10 bags of servo hardware which is a substantial saving over the individually packaged price.

The Hitec HS-645MG is a metal geared, Dual Ball Bearing high torque servo offering a substantial 9.6Kg of torque when operated at 6V at a speed of 0.20 sec/60⁰. Suitable for a multitude of uses including cars, buggies, planes, helicopters and boats, it really is a versatile, multi-purpose servo.

Great for hobby retailers who set up cars and planes for customers, it is handy to have a bulk pack under the counter.

Your customers will appreciate that you have used a high quality Hitec servo, ensuring repeat sales and customer satisfaction.

Stock up today!

Code: HTHS-645MG-BULK

U.S. Edition
2011-2012

GT33

GT33 (Code No. 38300)

- Displacement: 32.98cc 2.013cu.in.
- Bore: 36.0mm 1.417in.
- Stroke: 32.4mm 1.276in.
- Practical RPM: 1,800~8,000
- Output: 3.9ps (3.95hp)/9,000rpm
- Weight: Engine 98.42g 34.72oz
Silencer 160.5g 5.65oz
Igniter 105.0g 3.70oz

10% more power than any other in its class.

The second petrol engine from O.S. Engines ranks first in its class for power, and stands out for many other reasons too.

- Rear-mounted Walbro carburettor features a factory-assembled choke linkage.
- O.S. Built in a vibration-reducing back-plate mount and electronic ignition system that accepts NiCad, NiMh, LiPo and LiFe batteries.
- Runs more quietly than comparable engines while exceeding their output.
- Comes with an O.S. designed Pitts-style E-5030 silencer, built for strength and to resist distortion.

You might say, it's in a class of its own...

**Code: 38300 OS GT-33 PETROL ENGINE
with E-5030 SILENCER**

NEW Hobby Quality, Toy Car and Truck Range in Stock

Every second factory in China seems to be producing toy cars and most are rubbish! **Extensive testing was again required by Model Engines' staff** to weed out the duds. Testing involved multiple battery run downs on box loads of cars and buggies, checking the overall reliability, product compliance and of course establishing which cars had the fun factor.

- Code: KR2010B1-1 (Red)**
- Code: KR2010B1-2 (Black)**
- Code: KR2010B1-3 (White)**
- Code: KR2010B1-4 (Green)**

Stocking fillers in the form of 1/48th scale mini Kart Racing buggies were easy to decide on. The quality, presentation, ease of use and with a transmitter shaped like a steering wheel, they certainly had the fun factor. **Available in 4 colours.**

The larger cars range is size from 1/18th for the Ferity to 1/12th for the HV and 1/10th for the GT Faster Cross Country Truck. **Each of the larger cars are available in two colours.**

- Code: W3206** 1/18 Scale FERITY R/C Super Sport Truck with NiCad & AC Charger
- Code: W3819** 1/12 Scale HV R/C Cross Country Truck with NiCad & AC Charger
- Code: W1778CH** 1/10 Scale GT FASTER R/C Cross Country Truck with NiCad & AC

PROPELLERS

Model Engines has just received a new shipment of APC propellers.

Just like glow plugs, APC propellers are a must have item for every hobby shop.

With the growing interest in electric flight, our range of electric and slow-fly propellers has expanded over time to include a huge range of sizes not previously stocked from 4.5x4.1 up to a massive 24x12E and everything in between.

APC Nitro propellers are also a constant seller with standard props up to 22x10 as well as a selection of pusher and multi-blade props available.

For larger propellers there is always our range of MENZ wood with sizes up to 34x18 listed as well as a great range of three and four blade in stock.

GV Nitro Blaster Drag Car

Model Engines first showed the GV Drag Car over 7 years ago and it has been a great seller ever since. This enduring favourite is well-worth stocking in the lead up to Christmas.

The **1/10th Nitro Blaster Drag Racer** comes fully assembled with a Force 12 engine, wide foam rear tyres and skinny O-ring front tyres, painted body shell with stickers applied, front and rear wings, and 2 channel wheel radio included.
